Feet We've Helped Cover

"If I could rate them more stars, I would. They mocked up my design and were very accommodating to a few design changes. Overall, a great experience with quality socks. They were a hit at our conference."

Caralynn, Salt Lake City

"Easy process, exceptional service, excellent products! I'm always hesitant about ordering bulk products online and had a few questions about my order. A rep called me and thoroughly answered all my questions and even had solutions for some of my odd asks!"

Albert McCutcheon II, San Francisco

We Make Custom Socks Easy

Custom Sock Shop offers four primary types of socks: Athletic Socks, Dress Socks, Standard Promotional Socks, and Direct-To-Garment (Print) Socks. Each type of sock is made with different materials, machinery, and precision.

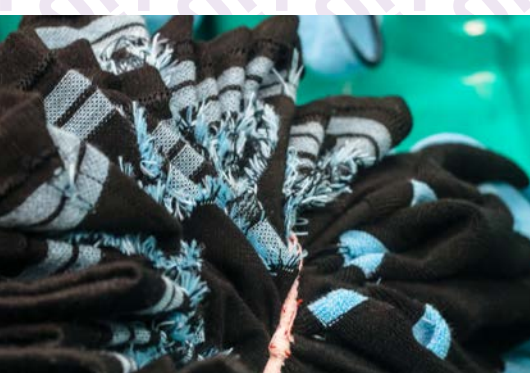

With every order, our design team will provide a digital mock-up of your sock prior to beginning production to ensure you get the exact sock you're looking for.

Printed + Stitched

Printed socks are made with 80% polyester, 18% nylon and 2% spandex and use DTG or direct to garment printing to allow for intricate designs, photos, and logos. We print your design directly onto a blank sock and ensure it looks good even when stretching the fabric. Unlike our knitted socks, these will tend to fade and shrink after continuous use and washing. **We have no minimum order quantity on printed socks.**

Our stitched socks include all athletic, dress, and standard socks. These are made with 144-need machinery (200-needle for dress socks) to provide the best quality design, durability, and comfort. **With all stitched socks, there is a 15 pair minimum order quantity.**

Printed vs. Stitched Socks

While our stitched socks offer premium quality and comfort, there are a number of reasons why printed socks might be the best option for you.

Stitched Socks

Stitched socks provide the traditional aesthetic that you think of when you see socks. The stitched designs create a raised, textured effect on the sock surface and add depth to the design. More importantly, stitched socks will be much more durable as each thread is firmly secured to the sock fabric and are much less likely to fade or stretch over time.

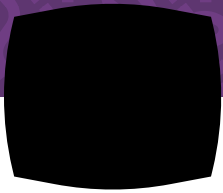

Printed Socks

Printed socks offer much more versatility when it comes to detailed designs, graphics, and even photographs of people's faces. These are also ideal if you are trying to create a variety of designs as our printed socks do not have any minimum order quantity.
